Volume size of storage: 8 GiB

Task – 3

Unversioned S3 bucket: I created and uploaded a word document “**unversioned**” which contains text “This is an example file for unversioned S3 bucket – 1!”

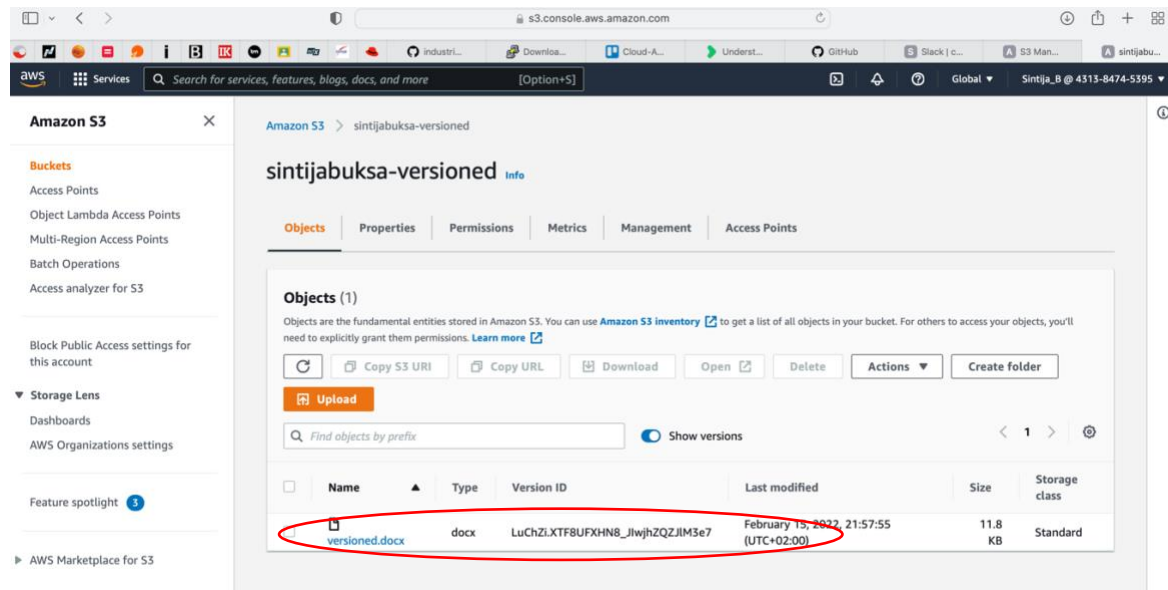

Afterwards I changed the document content to “This is an example file for unversioned S3 bucket – 2!” and uploaded it again.

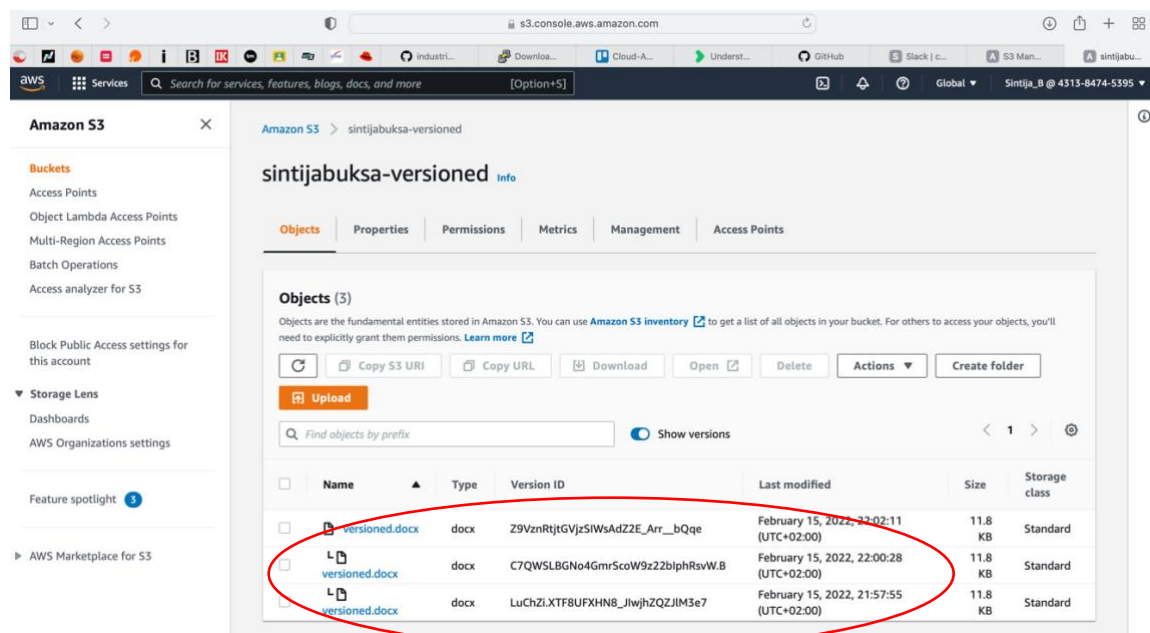

Conclusions: it can be observed that there is only one version of uploaded file.

Task – 4

Versioned S3 bucket: I created and uploaded a word document “**versioned**” which contains text “This is an example file for versioned S3 bucket – 1!”

Afterwards I changed the document content to “This is an example file for versioned S3 bucket – 2!”; and one more time “This is an example file for versioned S3 bucket – 3!”

Conclusions: it can be observed that there are three versions of uploaded document with traceable content.
